CANADIAN JOURNAL OF BIOCHEMISTRY

JOURNAL CANADIEN DE BIOCHIMIE

VOLUME 60, 1982

Author Index / Index des auteurs

Adams, S.P.
Glycosylation of plasma proteins with [U-^{14}C]glucose *in vivo*
RUDOLF VRBA and STEPHEN P. ADAMS 942

Allen, S.
Comparison of complexes containing lysyl-tRNA synthetase from normal and virus-transformed cells
KENT THOMAS, KAY SCHEETS, SHARON ALLEN, and CHARLES HEDGCOTH 804

Allore, R.J.
Structural studies of purified pig lymph node plasma membrane: association of cytoskeletal components with the plasma membrane and the effect of detergent solubilization
ROBERT J. ALLORE and BRIAN H. BARBER 57

Armstrong, G.D.
Characterization of the human placental receptor for basic somatomedin
B. BHAUMICK, G.D. ARMSTRONG, M.D. HOLLENBERG, and R.M. BALA 923

Armstrong, S.W.
Differences in protein content of sister nuclei: evidence from binucleate and mononucleate cells
S.W. ARMSTRONG and D. DAVIDSON 371

Arunachalam, T.
The biologic activity of selenoestrogens
C. LONGCOPE, T. ARUNACHALAM, and E. CASPI 152

Atkinson, B.G.
Chromatin-associated deoxyribonuclease activity in liver nuclei isolated from *Rana catesbeiana* froglets and premetamorphic and T_3-induced tadpoles
WILLIAM HARVEY and BURR G. ATKINSON 21

Atkinson, B.G.
Effect of heat shock on gene expression in human epidermoid carcinoma cells (strain KB) and in primary cultures of mammalian and avian cells
BURR G. ATKINSON and MICHAEL POLLACK 316

Atkinson, B.G.
Regulation of gene expression in corn (*Zea mays* L.) by heat shock
CHRIS L. BASZCZYNSKI, DAVID B. WALDEN, and BURR G. ATKINSON 569

Aubin, R.J.
Chromosomal protein poly(ADP-ribosyl)ation in pancreatic nucleosomes
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, and G.G. POIRIER 295

Aubin, R.J.
Hyper(ADP-ribosyl)ation of histone H1
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, A. HULETSKY, and G.G. POIRIER 1085

Aviv, H.
Expression of a cloned bovine growth hormone gene in *Escherichia coli* minicells
ARIE ROSNER, ELI KESHET, RACHEL GUTSTEIN, and HAIM AVIV 521

Bag, J.
Partial purification of a ribonucleic acid binding cAMP-independent protein kinase from embryonic chicken muscle
ALAN P. HUDSON, JNANANKUR BAG, and BRUCE H. SELLS 890

Baker, R.R.
Cholinephosphotransferase activities in microsomes and neuronal nuclei isolated from immature rabbit cerebral cortex: the use of endogenously generated diacylglycerols as substrate
R. ROY BAKER and HUU-YI CHANG 724

Bala, R.M.
Characterization of the human placental receptor for basic somatomedin
B. BHAUMICK, G.D. ARMSTRONG, M.D. HOLLENBERG, and R.M. BALA 923

Bamberger, M.
The effect of lidocaine on cholesterol influx, esterification, and accumulation in cultured cells
FRANK P. BELL, G.H. ROTHBLAT, and M. BAMBERGER 967

Banoub, J.H.
Chromium trioxide oxidation of acetylated 3-amino-3,6-dideoxy-L-hexosides
JOSEPH H. BANOUB and FRANCIS MICHON 517

Bansal, S.K.
Nuclear membrane-bound UDPglucuronosyltransferase of rat liver
JAN ZALESKI, SURENDRA K. BANSAL, and TERESA GESSNER 972

Barber, B.H.
Structural studies of purified pig lymph node plasma membrane: association of cytoskeletal components with the plasma membrane and the effect of detergent solubilization
ROBERT J. ALLORE and BRIAN H. BARBER 57

Barclay, B.J.
Genetic and biochemical consequences of thymidylate stress
B.J. BARCLAY, B.A. KUNZ, J.G. LITTLE, and R.H. HAYNES 172

Baszczynski, C.L.
Regulation of gene expression in corn (*Zea mays* L.) by heat shock
CHRIS L. BASZCZYNSKI, DAVID B. WALDEN, and BURR G. ATKINSON 569

Baxter, H.J.
Structural studies on yeast nucleosomes
KAY P. LEE, HEATHER J. BAXTER, JOSEPH G. GUILLEMETTE, HUGH G. LAWFORD, and PETER N. LEWIS 379

Bazett-Jones, D.P.
DNA organization in nucleosomes
D.P. BAZETT-JONES and F.P. OTTENSMEYER 364

Bégin-Heick, N.
Adenylate cyclase activity in brown adipose tissue of the genetically obese (ob/ob) mouse
NICOLE BÉGIN-HEICK and H.M.C. HEICK 910

Bégin-Heick, N.
An improved double antibody radioimmunoassay for the determination of insulin in serum, plasma, and tissue incubation media
MARTHE DALPÉ-SCOTT, H.M.C. HEICK, and NICOLE BÉGIN-HEICK 962

Bélanger, G.
Characterization of ribosomal proteins of *Physarum polycephalum*: number and molecular weight
GILLES BÉLANGER and GÉRALD LEMIEUX 512

Belch, A.
The effect of anoxia on anthracycline-induced DNA damage in the RPMI-6410 human lymphoblastoid cell line
L. BROX, B. GOWANS, R. TO, and A. BELCH 873

Bell, A.W.
Large-scale production of citrate synthase from a cloned gene
HARRY W. DUCKWORTH and ALEXANDER W. BELL 1143

Bell, F.P.
The effect of lidocaine on cholesterol influx, esterification, and accumulation in cultured cells
FRANK P. BELL, G.H. ROTHBLAT, and M. BAMBERGER 967

Berry, L.R.
The structural heterogeneity of the carbohydrate moiety of desialylated human transferrin
LEO MÄRZ, MARK W.C. HATTON, LESLIE R. BERRY, and ERWIN REGOECZI 624

Berteloot, A.
Proteins and enzymes of the brush-border membrane of mouse intestine: influence of organ culture on gel electrophoretic patterns
A. BERTELOOT and J.S. HUGON 434

Bhaumick, B.
Characterization of the human placental receptor for basic somatomedin
B. BHAUMICK, G.D. ARMSTRONG, M.D. HOLLENBERG, and R.M. BALA 923

Bishop, M.
An immunological study of the interaction of ligands with pyruvate kinase of *Neurospora crassa*
M. KAPOOR and M. BISHOP 771

Bjerrum, O.J.
Electroimmunochemical analysis of plasma membrane vesicles from *Saccharomyces cerevisiae*
JAMES H. GERLACH, OLE J. BJERRUM, and GERALD H. RANK 659

Bladon, T.
The effect of ultraviolet radiation on early stages of activation of human lymphocytes: inhibition is independent of effects on DNA
GUSTAVO CASTELLANOS, TREVOR OWENS, CHRISTOPHER RUDD, TREVOR BLADON, GEORGE SETTERFIELD, and J. GORDIN KAPLAN 854

Bolard, J.
Association of the polyene antibiotic amphotericin B with phospholipid vesicles: perturbation by temperature changes
JACQUES BOLARD and MONIQUE CHERON 782

Bowness, J.M.
[^{3}H]Fucose incorporation by healing skin wounds and the effect of transglutaminase inhibitors
J. MICHAEL BOWNESS 777

Bozzato, R.P.
Effects of membrane fluidity and identification of the rate-limiting step in the protein-mediated phosphatidylcholine exchange reaction
RICHARD P. BOZZATO and DAVID O. TINKER 409

Brasch, K.
Age- and ploidy-related changes in rat liver nuclear proteins as assessed by one- and two-dimensional gel electrophoresis
KLAUS BRASCH 204

Brglez, I.
Interaction of lipids with intestinal brush border membrane preparations
P. PROULX, J. MCNEIL, I. BRGLEZ, and D.G. WILLIAMSON 904

Briske-Anderson, M.
S-Adenosylhomocysteine hydrolase from rat liver
MARY BRISKE-ANDERSON and JOHN A. DUERRE 118

Brisson, J.-R.
Structure of the glycopeptides of a human γ_1-immunoglobulin G (Tem) myeloma protein as determined by 360-megahertz nuclear magnetic resonance spectroscopy
A.A. GREY, S. NARASIMHAN, J.-R. BRISSON, H. SCHACHTER, and J.P. CARVER 1123

Brisson, N.
Organization and expression of leghaemoglobin genes
N. BRISSON, A. POMBO-GENTILE, and D.P.S. VERMA 272

Brooks, S.P.J.
Effect of citrate on the reactions of cytochrome *c* with reductants and cyanide
S.P.J. BROOKS, G.A. CHANADY, and P. NICHOLLS 763

Brousseau, Y.
Chromosomal protein poly(ADP-ribosyl)ation in pancreatic nucleosomes
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, and G.G. POIRIER 295

Brousseau, Y.
Hyper(ADP-ribosyl)ation of histone H1
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, A. HULETSKY, and G.G. POIRIER 1085

Brown, E.
Characterization of the electrophoretic mobility mutation in the N protein of the *ts*D1 mutant of vesicular stomatitis virus New Jersey serotype
EARL BROWN and LUDVIK PREVEC 1065

Brown, M.
Adenoassociated virus has a unique chromatin structure
MARTHA BROWN and JOSEPH WEBER 1001

Brox, L.
The effect of anoxia on anthracycline-induced DNA damage in the RPMI-6410 human lymphoblastoid cell line
L. BROX, B. GOWANS, R. TO, and A. BELCH 873

Bruderlein, H.
Microcalorimetric study of the interaction of human and bovine serum albumins with tryptophan and tryptophan analogs
HONG PHUONG-NGUYEN, HÉLÈNE BRUDERLEIN, GENEVIÈVE DELMAS, and YVON PÉPIN 91

Brunk, C.F.
Reorganization of unique and repetitive sequences during nuclear development in *Tetrahymena thermophila*
CLIFFORD F. BRUNK, SMILEY G.S. TSAO, CATHERINE H. DIAMOND, PAMELA S. OHASHI, NORA N.G. TSAO, and RONALD E. PEARLMAN 847

Burkholder, G.D.
The effect of the chromosome banding techniques on the histone and nonhistone proteins of isolated chromatin
GARY D. BURKHOLDER and LAUREL L. DUCZEK 328

Burton, D.N.
The effects of experimental inflammation on turnover of fatty acid synthetase and levels of fatty acid synthetase messenger RNA in rat liver
JOHN M. LANGSTAFF and DAVID N. BURTON 712

Calleja, G.B.
Sexual development in a homothallic fission yeast: synthesis of readiness proteins resolved by gel electrophoresis
G.B. CALLEJA, BYRON F. JOHNSON, and TEENA WALKER 693

Campbell, I.M.
Reversible cryogenic alteration of the ultraviolet absorption spectra of the olefinic bonds in lipid membranes
IAN M. CAMPBELL and ASHA B. PAWAGI 593

Canas, P.E.
Effects of cyclic nucleotides on hemoglobin synthesis in fetal calf liver cells in culture
P.E. CANAS and L.F. CONGOTE 1

Candido, E.P.M.
Induction of a novel set of polypeptides by heat shock or sodium arsenite in cultured cells of rainbow trout, *Salmo gairdnerii*
R.K. KOTHARY and E.P.M. CANDIDO 347

Carroll, K.K.
The submicrosomal distribution of dolichol and dolichol phosphokinase activity in rat liver
JACK W. RIP and KENNETH K. CARROLL 36

Carver, J.P.
Structure of the glycopeptides of a human γ_1-immunoglobulin G (Tem) myeloma protein as determined by 360-megahertz nuclear magnetic resonance spectroscopy
A.A. GREY, S. NARASIMHAN, J.-R. BRISSON, H. SCHACHTER, and J.P. CARVER 1123

Caspi, E.
The biologic activity of selenoestrogens
C. LONGCOPE, T. ARUNACHALAM, and E. CASPI 152

Castellanos, G.
The effect of ultraviolet radiation on early stages of activation of human lymphocytes: inhibition is independent of effects on DNA
GUSTAVO CASTELLANOS, TREVOR OWENS, CHRISTOPHER RUDD, TREVOR BLADON, GEORGE SETTERFIELD, and J. GORDIN KAPLAN 854

Cedergren, R.J.
An evaluation of mitochondrial tRNA gene evolution and its relation to the genetic code
R.J. CEDERGREN 475

Chanady, G.A.
Effect of citrate on the reactions of cytochrome *c* with reductants and cyanide
S.P.J. BROOKS, G.A. CHANADY, and P. NICHOLLS 763

Chang, H.-y.
Cholinephosphotransferase activities in microsomes and neuronal nuclei isolated from immature rabbit cerebral cortex: the use of endogenously generated diacylglycerols as substrate
R. ROY BAKER and HUU-YI CHANG 724

Cheron, M.
Association of the polyene antibiotic amphotericin B with phospholipid vesicles: perturbation by temperature changes
JACQUES BOLARD and MONIQUE CHERON 782

Chiew, Y.Y.
The effects of ergosterol and alcohols on germ-tube formation and chitin synthase in *Candida albicans*
YOKE YIN CHIEW, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD 15

Chinzei, Y.
Vitellogenin mRNA in locust fat body: identification, isolation, and quantitative changes induced by juvenile hormone
Y. CHINZEI, B.N. WHITE, and G.R. WYATT 243

Cho, K.C.
A calorimetric study of the thermal transitions of *Halobacterium cutirubrum*
K.C. CHO, K.C. CHOW, and K.K. MARK 419

Chow, K.C.
A calorimetric study of the thermal transitions of *Halobacterium cutirubrum*
K.C. CHO, K.C. CHOW, and K.K. MARK 419

Chowdhury, P.
Influence of heat on the conformational stability of a human IgG cryoglobulin
PARIMAL CHOWDHURY and ANIL SAHA 564

Choy, P.C.
Phosphatidylethanolamine biosynthesis in isolated hamster heart
TERESA A. ZELINSKI and PATRICK C. CHOY 817

Church, R.B.
Chromosome rearrangement between the Indian muntjac and Chinese muntjac is accompanied by a deletion of middle repetitive DNA
FRANK P. JOHNSTON, R.B. CHURCH, and C.C. LIN 497

Colwill, R.W.
Novobiocin sensitivity and chromatin conformation in wild-type and temperature-sensitive mouse L cells
R.W. COLWILL and R. SHEININ 195

Congote, L.F.
Effects of cyclic nucleotides on hemoglobin synthesis in fetal calf liver cells in culture
P.E. CANAS and L.F. CONGOTE 1

Corvol, P.
Tonin as activator of renin
JOLANTA GUTKOWSKA, PIERRE CORVOL, GAÉTAN THIBAULT, and JACQUES GENEST 843

Côté, S.
Isolation and characterization of histones and other acid-soluble chromosomal proteins from *Physarum polycephalum*
SERGE CÔTÉ, PAUL NADEAU, JAMES M. NEELIN, and DOMINICK PALLOTTA 263

Dales, S.
Potential of intense γ-irradiation of host cells for analysis of virus-specified transcription and replication
MORRIS SILVER and SAMUEL DALES 279

Dalpé-Scott, M.
An improved double antibody radioimmunoassay for the determination of insulin in serum, plasma, and tissue incubation media
MARTHE DALPÉ-SCOTT, H.M.C. HEICK, and NICOLE BÉGIN-HEICK 962

Dam, V.T.
Chromosomal protein poly(ADP-ribosyl)ation in pancreatic nucleosomes
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, and G.G. POIRIER 295

Dam, V.T.
Hyper(ADP-ribosyl)ation of histone H1
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, A. HULETSKY, and G.G. POIRIER 1085

Davidson, D.
Differences in protein content of sister nuclei: evidence from binucleate and mononucleate cells
S.W. ARMSTRONG and D. DAVIDSON 371

Davies, B.H.
A cell-free system from *Streptococcus faecium* for studies on the biosynthesis of triterpenoid carotenoids
RICHARD F. TAYLOR and BRIAN H. DAVIES 675

Davies, B.H.
The biosynthesis of triterpenoid carotenoids in *Streptococcus faecium* UNH 564P
BRIAN H. DAVIES and RICHARD F. TAYLOR 684

Davignon, J.
Plasma methyl sterol sulfates in familial hypercholesterolemia after partial ileal bypass
R. MASSÉ, Y.S. HUANG, K. EID, C. LALIBERTÉ, and J. DAVIGNON 556

Davis, R.C.
Interaction of D-phenylalanine with Co(II)-substituted rabbit muscle pyruvate kinase: kinetic and optical properties
CHIU-YIN KWAN and ROBERT C. DAVIS 861

Degrelle, H.
Étude de la dééthérification du 3-propyl ether d'estradiol par les fractions subcellulaires de foie de rat
JEAN-PIERRE TRESCA, GENEVIÈVE PONSARD et HERVÉ DEGRELLE 549

Delmas, G.
Microcalorimetric study of the interaction of human and bovine serum albumins with tryptophan and tryptophan analogs
HONG PHUONG-NGUYEN, HÉLÈNE BRUDERLEIN, GENEVIÈVE DELMAS, and YVON PÉPIN 91

Des Rosiers, C.
Glycerol-induced adenine nucleotide catabolism in rat liver cells
CHRISTINE DES ROSIERS, MARCEL LALANNE, and JOAN WILLEMOT 1101

Des Rosiers, C.
Effects of glycerol and fructose on purine synthesis *de novo* and on PP-ribose-P availability in rat liver cells
CHRISTINE DES ROSIERS, MARCEL LALANNE, and JOAN WILLEMOT 1109

Diamond, C.H.
Reorganization of unique and repetitive sequences during nuclear development in *Tetrahymena thermophila*
CLIFFORD F. BRUNK, SMILEY G.S. TSAO, CATHERINE H. DIAMOND, PAMELA S. OHASHI, NORA N.G. TSAO, and RONALD E. PEARLMAN **847**

Di Paolo, T.
[^{3}H]Apomorphine binding to a GTP-sensitive dopaminergic site in bovine anterior pituitary gland
THÉRÈSE DI PAOLO, BERNARD GAGNÉ, PATRICK POYET, and FERNAND LABRIE **1043**

Dolphin, P.J.
Analysis of enzymatically released peptides by reverse-phase high performance liquid chromatography from picomole amounts of apolipoproteins separated on polyacrylamide isoelectric focusing gels
LEO V. PEREIRA and PETER J. DOLPHIN **790**

Dolphin, P.J.
Tryptic peptide analysis of the human apolipoprotein E isomorphs
LEO V. PEREIRA and PETER J. DOLPHIN **1032**

Doolittle, W.F.
Evolutionary molecular biology: where is it going?
W. FORD DOOLITTLE **83**

Doolittle, W.F.
Comparative sequence analysis as an approach to evaluating structure, function, and evolution of 5S and 5.8S ribosomal RNAs
RON M. MACKAY, DAVID F. SPENCER, MURRAY N. SCHNARE, W. FORD DOOLITTLE, and MICHAEL W. GRAY **480**

Duckworth, H.W.
Large-scale production of citrate synthase from a cloned gene
HARRY W. DUCKWORTH and ALEXANDER W. BELL **1143**

Duczek, L.L.
The effect of the chromosome banding techniques on the histone and nonhistone proteins of isolated chromatin
GARY D. BURKHOLDER and LAUREL L. DUCZEK **328**

Duerre, J.A.
S-Adenosylhomocysteine hydrolase from rat liver
MARY BRISKE-ANDERSON and JOHN A. DUERRE **118**

Eid, K.
Plasma methyl sterol sulfates in familial hypercholesterolemia after partial ileal bypass
R. MASSÉ, Y.S. HUANG, K. EID, C. LALIBERTÉ, and J. DAVIGNON **556**

Elce, J.S.
Purification of bovine and human acrosin
JOHN S. ELCE and ELISE J. MCINTYRE **8**

Ellison, M.J.
A topoisomerase from chicken erythrocyte nuclei which does not assemble nucleosome core particles *in vitro*
MICHAEL J. ELLISON and DAVID E. PULLEYBLANK **651**

Engler, R.
Inhibition of cathepsin L and B by haptoglobin, the haptoglobin–hemoglobin complex, and asialohaptoglobin. "In vitro" studies in the rat
M. PAGANO, M.A. NICOLA, and R. ENGLER **631**

Evans, D.H.
A method for the specific inhibition of poly[d(A-T)] synthesis using the A-T specific quinoxaline antibiotic TANDEM
D.H. EVANS, J.S. LEE, A.R. MORGAN, and R.K. OLSEN **131**

Fellenz, M.
Growth of interscapular brown adipose tissue in cold-acclimated hypophysectomized rats maintained on thyroxine and corticosterone
MATHIAS FELLENZ, JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN **838**

Forer, A.
Erratum: Analysis of chromosome movement in crane fly spermatocytes by ultraviolet irradiation of individual chromosomal spindle fibres. II. Action spectra for stopping chromosome movement and for blocking ciliary beating and myofibril contractions
PEGGY J. SILLERS and ARTHUR FORER **81**

Forsdyke, D.R.
Formation of erythrocyte rouleaux in preheated normal serum: roles of albumin polymers and lysophosphatidylcholine
D.R. FORSDYKE, R.G.E. PALFREE, and A. TAKEDA **705**

Forstner, G.
Soluble neutral maltase–glucoamylase from the small intestine: separation and characterization of components with differing affinity for concanavalin A
G. FORSTNER, A. SALVATORE, L. LEE, and J. FORSTNER **1007**

Forstner, J.
Soluble neutral maltase–glucoamylase from the small intestine: separation and characterization of components with differing affinity for concanavalin A
G. FORSTNER, A. SALVATORE, L. LEE, and J. FORSTNER **1007**

Francis, M.
Partial purification and characterization of a membrane-associated steroid-binding protein from *Pseudomonas testosteroni*
MIKE FRANCIS and MAMORU WATANABE **798**

Freisheim, J.H.
Purification and characterization of dihydrofolate reductase from Walker 256 carcinosarcoma
SUSAN J. JOHNSON, SAGAR V. GUPTA, KENNETH J. STEVENSON, and JAMES H. FREISHEIM **1132**

Fujimoto, D.
Photolysis of pyridinoline, a cross-linking amino acid of collagen, by ultraviolet light
SACHIKO SAKURA, DAISABURO FUJIMOTO, KIKUO SAKAMOTO, AKIO MIZUNO, and KATSUTOSHI MOTEGI **525**

Gagné, B.
[^{3}H]Apomorphine binding to a GTP-sensitive dopaminergic site in bovine anterior pituitary gland
THÉRÈSE DI PAOLO, BERNARD GAGNÉ, PATRICK POYET, and FERNAND LABRIE **1043**

Galella, G.
The cross-linking of tubulin with imidoesters
G. GALELLA and DAVID B. SMITH **71**

Gaunt, M.T.
The inhibition of β-galactosidase (*Escherichia coli*) by amino sugars and amino alcohols
R.E. HUBER and M.T. GAUNT **608**

Genest, J.
Tonin as activator of renin
JOLANTA GUTKOWSKA, PIERRE CORVOL, GAÉTAN THIBAULT, and JACQUES GENEST **843**

Gerlach, J.H.
Electroimmunochemical analysis of plasma membrane vesicles from *Saccharomyces cerevisiae*
JAMES H. GERLACH, OLE J. BJERRUM, and GERALD H. RANK **659**

Gessner, T.
Nuclear membrane-bound UDPglucuronosyltransferase of rat liver
JAN ZALESKI, SURENDRA K. BANSAL, and TERESA GESSNER **972**

Glick, B.R.
Analysis of the expression of cloned genes using an *Escherichia coli* cell-free system
YEW PHEW SEE and BERNARD R. GLICK **1095**

Godin, C.
Proteins synthesized by rabbit reticulocyte membrane-bound ribosomes
RÉAL LEMIEUX and CLAUDE GODIN **580**

Goldberg, D.M.
Modulation by phenobarbital of lipolytic activity in postheparin plasma and tissues of the rat
DAVID M. GOLDBERG, M. WAHEED ROOMI, and ALEX YU **1077**

Gopal, P.K.
A microassay for UDP-*N*-acetylglucosamine pyrophosphorylase
PRAMOD K. GOPAL, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD **721**

Gordon, E.R.
A rapid and quantitative high performance liquid chromatographic method for assaying bilirubin and its conjugates in bile
ELLEN R. GORDON and CARL A. GORESKY **1050**

Gordon, K.
Specific small nuclear RNAs from SV40-transformed cells stimulate transcription initiation in nontransformed isolated nuclei
MAURICE J. RINGUETTE, KAREN GORDON, JOLANTA SZYSZKO, and MARGARIDA O. KRAUSE **252**

Goren, H.J.
Effect of cross-linking agents on insulin associated responses in adipocytes
H. JOSEPH GOREN and C. RONALD KAHN **987**

Goresky, C.A.
A rapid and quantitative high performance liquid chromatographic method for assaying bilirubin and its conjugates in bile
ELLEN R. GORDON and CARL A. GORESKY **1050**

Gowans, B.
The effect of anoxia on anthracycline-induced DNA damage in the RPMI-6410 human lymphoblastoid cell line
L. BROX, B. GOWANS, R. TO, and A. BELCH **873**

Gray, M.W.
Mitochondrial genome diversity and the evolution of mitochondrial DNA
MICHAEL W. GRAY **157**

Gray, M.W.
Comparative sequence analysis as an approach to evaluating structure, function, and evolution of 5S and 5.8S ribosomal RNAs
RON M. MACKAY, DAVID F. SPENCER, MURRAY N. SCHNARE, W. FORD DOOLITTLE, and MICHAEL W. GRAY **480**

Gray, N.C.C.
The purification and characterization of a phospholipase A_2 activity from the 160 000 $\times$ *g* pellet (microsomal fraction) of bovine brain acting on phosphatidylinositol
N.C.C. GRAY and K.P. STRICKLAND **108**

Grey, A.A.
Structure of the glycopeptides of a human γ_1-immunoglobulin G (Tem) myeloma protein as determined by 360-megahertz nuclear magnetic resonance spectroscopy
A.A. GREY, S. NARASIMHAN, J.-R. BRISSON, H. SCHACHTER, and J.P. CARVER **1123**

Grzelczak, Z.F.
Synthesis and turnover of proteins and mRNA in germinating wheat embryos
ZBYSZKO F. GRZELCZAK, MARK H. SATTOLO, LINDA K. HANLEY-BOWDOIN, THERESA D. KENNEDY, and BYRON G. LANE **389**

Guertin, D.
On the contribution of the mitochondrial genome to the growth of Chinese hamster embryo cells in culture
RÉJEAN MORAIS, DENISE GUERTIN, and JACK A. KORNBLATT **290**

Guillemette, J.G.
Structural studies on yeast nucleosomes
KAY P. LEE, HEATHER J. BAXTER, JOSEPH G. GUILLEMETTE, HUGH G. LAWFORD, and PETER N. LEWIS **379**

Gupta, S.V.
Purification and characterization of dihydrofolate reductase from Walker 256 carcinosarcoma
SUSAN J. JOHNSON, SAGAR V. GUPTA, KENNETH J. STEVENSON, and JAMES H. FREISHEIM **1132**

Gutkowska, J.
Tonin as activator of renin
JOLANTA GUTKOWSKA, PIERRE CORVOL, GAÉTAN THIBAULT, and JACQUES GENEST 843

Gutstein, R.
Expression of a cloned bovine growth hormone gene in *Escherichia coli* minicells
ARIE ROSNER, ELI KESHET, RACHEL GUTSTEIN, and HAIM AVIV 521

Gwilliam, C.
Role of thyroid hormone in cold-induced changes in rat brown adipose tissue mitochondria
JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN 530

Gwilliam, C.
Growth of interscapular brown adipose tissue in cold-acclimated hypophysectomized rats maintained on thyroxine and corticosterone
MATHIAS FELLENZ, JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN 838

Hahn, P.
3-Hydroxy-3-methylglutaryl-CoA reductase activity in liver, brown fat, and small intestine of developing rats
PETER HAHN and FREDA-ANNE SMALE 507

Hamilton, I.R.
Inorganic pyrophosphatase activity in oral streptococci: purification and properties of the enzyme from *Streptococcus salivarius*
RAMJI L. KHANDELWAL and IAN R. HAMILTON 452

Hanley-Bowdoin, L.K.
Synthesis and turnover of proteins and mRNA in germinating wheat embryos
ZBYSZKO F. GRZELCZAK, MARK H. SATTOLO, LINDA K. HANLEY-BOWDOIN, THERESA D. KENNEDY, and BYRON G. LANE 389

Hara, H.
ESR studies on the lipid bilayers of separated outer and cytoplasmic membranes of a moderately halophilic bacterium
SHIGEKO KURIYAMA, HISAKO HARA, TAKASHI HIRAMATSU, ATSUSHI HYONO, IKUYA YANO, and MASAMIKI MASUI 830

Harvey, W.
Chromatin-associated deoxyribonuclease activity in liver nuclei isolated from *Rana catesbeiana* froglets and premetamorphic and T_3-induced tadpoles
WILLIAM HARVEY and BURR G. ATKINSON 21

Hatton, M.W.C.
The structural heterogeneity of the carbohydrate moiety of desialylated human transferrin
LEO MÄRZ, MARK W.C. HATTON, LESLIE R. BERRY, and ERWIN REGOECZI 624

Hayden, D.B.
Changes in the heterogeneity of ribulosebisphosphate carboxylase–oxygenase in winter rye induced by cold hardening
N.P.A. HUNER and D.B. HAYDEN 897

Haynes, R.H.
Genetic and biochemical consequences of thymidylate stress
B.J. BARCLAY, B.A. KUNZ, J.G. LITTLE, and R.H. HAYNES 172

Hedgcoth, C.
Comparison of complexes containing lysyl-tRNA synthetase from normal and virus-transformed cells
KENT THOMAS, KAY SCHEETS, SHARON ALLEN, and CHARLES HEDGCOTH 804

Hegadorn, C.A.
Biosynthesis of CDP-diacylglycerol in hog mesenteric lymph node lymphocytes
MICHAEL SRIBNEY and CAROL A. HEGADORN 668

Heick, H.M.C.
Adenylate cyclase activity in brown adipose tissue of the genetically obese (ob/ob) mouse
NICOLE BÉGIN-HEICK and H.M.C. HEICK 910

Heick, H.M.C.
An improved double antibody radioimmunoassay for the determination of insulin in serum, plasma, and tissue incubation media
MARTHE DALPÉ-SCOTT, H.M.C. HEICK, and NICOLE BÉGIN-HEICK 962

Hellion, P.
Studies on the uptake of exogenous phosphoglycerides by *Escherichia coli* B cells
P. PROULX, P. HELLION, and J. MACKENZIE 980

Henderson, J.F.
Comparison of purine and pyrimidine metabolism in G_1 and S phases of HeLa and Chinese hamster ovary cells
JOYCE HORDERN and J. FRANK HENDERSON 422

Hercz, A.
Isolation and characterization of goat serum α_1-globulin protease inhibitors
ALBERT HERCZ 28

Hew, C.L.
Radioimmunoassay for the antifreeze polypeptides of the winter flounder: seasonal profile and immunological cross-reactivity with other fish antifreezes
DON SLAUGHTER and CHOY L. HEW 824

Himms-Hagen, J.
Role of thyroid hormone in cold-induced changes in rat brown adipose tissue mitochondria
JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN 530

Himms-Hagen, J.
Growth of interscapular brown adipose tissue in cold-acclimated hypophysectomized rats maintained on thyroxine and corticosterone
MATHIAS FELLENZ, JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN 838

Hiramatsu, T.
ESR studies on the lipid bilayers of separated outer and cytoplasmic membranes of a moderately halophilic bacterium
SHIGEKO KURIYAMA, HISAKO HARA, TAKASHI HIRAMATSU, ATSUSHI HYONO, IKUYA YANO, and MASAMIKI MASUI **830**

Hollenberg, M.D.
Characterization of the human placental receptor for basic somatomedin
B. BHAUMICK, G.D. ARMSTRONG, M.D. HOLLENBERG, and R.M. BALA **923**

Hordern, J.
Comparison of purine and pyrimidine metabolism in G_1 and S phases of HeLa and Chinese hamster ovary cells
JOYCE HORDERN and J. FRANK HENDERSON **422**

Huang, Y.S.
Plasma methyl sterol sulfates in familial hypercholesterolemia after partial ileal bypass
R. MASSÉ, Y.S. HUANG, K. EID, C. LALIBERTÉ, and J. DAVIGNON **556**

Huber, R.E.
The inhibition of β-galactosidase (*Escherichia coli*) by amino sugars and amino alcohols
R.E. HUBER and M.T. GAUNT **608**

Hudson, A.P.
Partial purification of a ribonucleic acid binding cAMP-independent protein kinase from embryonic chicken muscle
ALAN P. HUDSON, JNANANKUR BAG, and BRUCE H. SELLS **890**

Hugon, J.S.
Proteins and enzymes of the brush-border membrane of mouse intestine: influence of organ culture on gel electrophoretic patterns
A. BERTELOOT and J.S. HUGON **434**

Huletsky, A.
Hyper(ADP-ribosyl)ation of histone H1
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, A. HULETSKY, and G.G. POIRIER **1085**

Huner, N.P.A.
Changes in the heterogeneity of ribulosebisphosphate carboxylase–oxygenase in winter rye induced by cold hardening
N.P.A. HUNER and D.B. HAYDEN **897**

Huterer, S.
Deacylation of bis(monoacylglycero)phosphate by lysosomal and microsomal lysophospholipases from rat liver
SREBRENKA HUTERER and JOHN R. WHERRETT **599**

Hyono, A.
ESR studies on the lipid bilayers of separated outer and cytoplasmic membranes of a moderately halophilic bacterium
SHIGEKO KURIYAMA, HISAKO HARA, TAKASHI HIRAMATSU, ATSUSHI HYONO, IKUYA YANO, and MASAMIKI MASUI **830**

Johnson, B.F.
Sexual development in a homothallic fission yeast: synthesis of readiness proteins resolved by gel electrophoresis
G.B. CALLEJA, BYRON F. JOHNSON, and TEENA WALKER **693**

Johnson, S.J.
Purification and characterization of dihydrofolate reductase from Walker 256 carcinosarcoma
SUSAN J. JOHNSON, SAGAR V. GUPTA, KENNETH J. STEVENSON, and JAMES H. FREISHEIM **1132**

Johnston, F.P.
Chromosome rearrangement between the Indian muntjac and Chinese muntjac is accompanied by a deletion of middle repetitive DNA
FRANK P. JOHNSTON, R.B. CHURCH, and C.C. LIN **497**

Jones, G.H.
Preparation of messenger RNA from mature skeletal and cardiac muscle
PETER A. ROGERS and GEORGE H. JONES **587**

Kahn, C.R.
Effect of cross-linking agents on insulin associated responses in adipocytes
H. JOSEPH GOREN and C. RONALD KAHN **987**

Kaplan, J.G.
The effect of ultraviolet radiation on early stages of activation of human lymphocytes: inhibition is independent of effects on DNA
GUSTAVO CASTELLANOS, TREVOR OWENS, CHRISTOPHER RUDD, TREVOR BLADON, GEORGE SETTERFIELD, and J. GORDIN KAPLAN **854**

Kapoor, M.
An immunological study of the interaction of ligands with pyruvate kinase of *Neurospora crassa*
M. KAPOOR and M. BISHOP **771**

Karska-Wysocki, B.
Injection defect in alkylated and depurinated T7 bacteriophage: analysis by DNA ejection
M.D. MAMET-BRATLEY, M. ZOLLINGER, and B. KARSKA-WYSOCKI **232**

Kay, C.M.
Dissociation and characterization of pilin isolated from *Pseudomonas aeruginosa* strains PAK and PAO
TANIA H. WATTS, CYRIL M. KAY, and WILLIAM PARANCHYCH **867**

Kennedy, T.D.
Synthesis and turnover of proteins and mRNA in germinating wheat embryos
ZBYSZKO F. GRZELCZAK, MARK H. SATTOLO, LINDA K. HANLEY-BOWDOIN, THERESA D. KENNEDY, and BYRON G. LANE **389**

Keshet, E.
Expression of a cloned bovine growth hormone gene in *Escherichia coli* minicells
ARIE ROSNER, ELI KESHET, RACHEL GUTSTEIN, and HAIM AVIV **521**

Khandelwal, R.L.
Inorganic pyrophosphatase activity in oral streptococci: purification and properties of the enzyme from *Streptococcus salivarius*
RAMJI L. KHANDELWAL and IAN R. HAMILTON **452**

Kim, J.-K.
Sulphide as an inhibitor and electron donor for the cytochrome *c* oxidase system
P. NICHOLLS and J.-K. KIM 613

Knight, B.L.
The separation and properties of phosphoprotein phosphatase modulators from brown adipose tissue of young rats and the changes in their concentration during development
BRIAN L. KNIGHT and JOSEF P. SKALA 734

Kornblatt, J.A.
On the contribution of the mitochondrial genome to the growth of Chinese hamster embryo cells in culture
RÉJEAN MORAIS, DENISE GUERTIN, and
JACK A. KORNBLATT 290

Kothary, R.K.
Induction of a novel set of polypeptides by heat shock or sodium arsenite in cultured cells of rainbow trout, *Salmo gairdnerii*
R.K. KOTHARY and E.P.M. CANDIDO 347

Krause, M.O.
Specific small nuclear RNAs from SV40-transformed cells stimulate transcription initiation in nontransformed isolated nuclei
MAURICE J. RINGUETTE, KAREN GORDON, JOLANTA SZYSZKO, and MARGARIDA O. KRAUSE 252

Kuksis, A.
Expansion of phospholipid pool size of rat intestinal villus cells during fat absorption
N.A. SHAIKH and A. KUKSIS 444

Kuksis, A.
Resolution of diacylglycerol moieties of natural glycerophospholipids by gas–liquid chromatography on polar capillary columns
J.J. MYHER and A. KUKSIS 638

Kundu, S.C.
Meiotic arrest and synaptonemal complexes in yeast *ts spo 10 (Saccharomyces cerevisiae)*
PETER B. MOENS and SUBHAS C. KUNDU 284

Kunz, B.A.
Genetic and biochemical consequences of thymidylate stress
B.J. BARCLAY, B.A. KUNZ, J.G. LITTLE, and
R.H. HAYNES 172

Kuriyama, S.
ESR studies on the lipid bilayers of separated outer and cytoplasmic membranes of a moderately halophilic bacterium
SHIGEKO KURIYAMA, HISAKO HARA, TAKASHI HIRAMATSU, ATSUSHI HYONO, IKUYA YANO, and MASAMIKI MASUI 830

Kwan, C.-Y.
Interaction of D-phenylalanine with Co(II)-substituted rabbit muscle pyruvate kinase: kinetic and optical properties
CHIU-YIN KWAN and ROBERT C. DAVIS 861

Labrie, F.
[^{3}H]Apomorphine binding to a GTP-sensitive dopaminergic site in bovine anterior pituitary gland
THÉRÈSE DI PAOLO, BERNARD GAGNÉ, PATRICK POYET, and
FERNAND LABRIE 1043

Laidler, K.J.
pH dependence of free and immobilized yeast alcohol dehydrogenase kinetics
M.A. MAZID and K.J. LAIDLER 100

Lalanne, M.
Glycerol-induced adenine nucleotide catabolism in rat liver cells
CHRISTINE DES ROSIERS, MARCEL LALANNE, and
JOAN WILLEMOT 1101

Lalanne, M.
Effects of glycerol and fructose on purine synthesis *de novo* and on PP-ribose-P availability in rat liver cells
CHRISTINE DES ROSIERS, MARCEL LALANNE, and
JOAN WILLEMOT 1109

Laliberté, C.
Plasma methyl sterol sulfates in familial hypercholesterolemia after partial ileal bypass
R. MASSÉ, Y.S. HUANG, K. EID, C. LALIBERTÉ, and
J. DAVIGNON 556

Lane, B.G.
Synthesis and turnover of proteins and mRNA in germinating wheat embryos
ZBYSZKO F. GRZELCZAK, MARK H. SATTOLO,
LINDA K. HANLEY-BOWDOIN, THERESA D. KENNEDY, and
BYRON G. LANE 389

Langstaff, J.M.
The effects of experimental inflammation on turnover of fatty acid synthetase and levels of fatty acid synthetase messenger RNA in rat liver
JOHN M. LANGSTAFF and DAVID N. BURTON 712

Lapointe, J.
Study of the evolution of the genetic code by comparing the structural and catalytic properties of the aminoacyl-tRNA synthetases
JACQUES LAPOINTE 471

Laprade, R.
Surface potential and conductance induced in lipid bilayers by the negatively charged ionophore Br-X537A
G. ROY, Y. OKADA, and R. LAPRADE 42

Laprade, R.
Cation and local anesthetic conductance induced by the negatively charged ionophore Br-X537A in lipid bilayers
G. ROY, Y. OKADA, and R. LAPRADE 49

Lawford, H.G.
Structural studies on yeast nucleosomes
KAY P. LEE, HEATHER J. BAXTER, JOSEPH G. GUILLEMETTE, HUGH G. LAWFORD, and PETER N. LEWIS 379

Lee, J.S.
A method for the specific inhibition of poly[d(A-T)] synthesis using the A-T specific quinoxaline antibiotic TANDEM
D.H. EVANS, J.S. LEE, A.R. MORGAN, and
R.K. OLSEN 131

Lee, J.S.
Novel aspects of the structure of the *Escherichia coli* nucleoid investigated by a rapid sedimentation assay
JEREMY S. LEE and A. RICHARD MORGAN 952

Lee, K.P.
Structural studies on yeast nucleosomes
KAY P. LEE, HEATHER J. BAXTER, JOSEPH G. GUILLEMETTE, HUGH G. LAWFORD, and PETER N. LEWIS 379

Lee, L.
Soluble neutral maltase–glucoamylase from the small intestine: separation and characterization of components with differing affinity for concanavalin A
G. FORSTNER, A. SALVATORE, L. LEE, and J. FORSTNER 1007

Lehoux, J.-G.
Effect of ACTH or zinc treatment on plasma aldosterone and corticosterone levels and on the *in vitro* steroid output from adrenocortical cells
NICOLE PAYET and JEAN-GUY LEHOUX 1058

Lemieux, G.
Characterization of ribosomal proteins of *Physarum polycephalum*: number and molecular weight
GILLES BÉLANGER and GÉRALD LEMIEUX 512

Lemieux, R.
Proteins synthesized by rabbit reticulocyte membrane-bound ribosomes
RÉAL LEMIEUX and CLAUDE GODIN 580

Lewis, P.N.
Structural studies on yeast nucleosomes
KAY P. LEE, HEATHER J. BAXTER, JOSEPH G. GUILLEMETTE, HUGH G. LAWFORD, and PETER N. LEWIS 379

Liew, C.C.
Production of antibody to phosphoprotein associated with nucleosome structure
M.S. ZHAO and C.C. LIEW 356

Lin, C.C.
Chromosome rearrangement between the Indian muntjac and Chinese muntjac is accompanied by a deletion of middle repetitive DNA
FRANK P. JOHNSTON, R.B. CHURCH, and C.C. LIN 497

Little, J.G.
Genetic and biochemical consequences of thymidylate stress
B.J. BARCLAY, B.A. KUNZ, J.G. LITTLE, and R.H. HAYNES 172

Longcope, C.
The biologic activity of selenoestrogens
C. LONGCOPE, T. ARUNACHALAM, and E. CASPI 152

Low, R.
Thermodynamics of mixing of dipalmitoyl phosphatidylcholine and egg phosphatidylcholine in hydrated bilayers
DAVID O. TINKER and ROSITA LOW 538

Lowden, J.A.
Purification of glucosylceramidase by affinity chromatography
P.M. STRASBERG, J.A. LOWDEN, and D. MAHURAN 1025

Lusena, C.V.
Some properties of a mitochondrial endonuclease from yeast
R. MOROSOLI and C.V. LUSENA 757

MacKay, R.M.
Comparative sequence analysis as an approach to evaluating structure, function, and evolution of 5S and 5.8S ribosomal RNAs
RON M. MACKAY, DAVID F. SPENCER, MURRAY N. SCHNARE, W. FORD DOOLITTLE, and MICHAEL W. GRAY 480

Mackenzie, J.
Studies on the uptake of exogenous phosphoglycerides by *Escherichia coli* B cells
P. PROULX, P. HELLION, and J. MACKENZIE 980

Mackie, G.A.
Identification of gene products from cloned fragments of the left arm of λdapB2
GEORGE A. MACKIE and GAY D. PARSONS 338

MacManus, J.P.
Rat liver ribonucleotide reductase: separation, purification, and properties of two nonidentical subunits
T. YOUDALE, J.P. MACMANUS, and J.F. WHITFIELD 463

Mahuran, D.
Purification of glucosylceramidase by affinity chromatography
P.M. STRASBERG, J.A. LOWDEN, and D. MAHURAN 1025

Maleszka, R.
A Col E1 hybrid plasmid containing *Escherichia coli* genes complementing D-xylose negative mutants of *Escherichia coli* and *Salmonella typhimurium*
RYSZARD MALESZKA, PATRICK Y. WANG, and HENRY SCHNEIDER 144

Mamet-Bratley, M.D.
Injection defect in alkylated and depurinated T7 bacteriophage: analysis by DNA ejection
M.D. MAMET-BRATLEY, M. ZOLLINGER, and B. KARSKA-WYSOCKI 232

Mark, K.K.
A calorimetric study of the thermal transitions of *Halobacterium cutirubrum*
K.C. CHO, K.C. CHOW, and K.K. MARK 419

März, L.
The structural heterogeneity of the carbohydrate moiety of desialylated human transferrin
LEO MÄRZ, MARK W.C. HATTON, LESLIE R. BERRY, and ERWIN REGOECZI 624

Massé, R.
Plasma methyl sterol sulfates in familial hypercholesterolemia after partial ileal bypass
R. MASSÉ, Y.S. HUANG, K. EID, C. LALIBERTÉ, and J. DAVIGNON 556

Masui, M.
ESR studies on the lipid bilayers of separated outer and cytoplasmic membranes of a moderately halophilic bacterium
SHIGEKO KURIYAMA, HISAKO HARA, TAKASHI HIRAMATSU, ATSUSHI HYONO, IKUYA YANO, and MASAMIKI MASUI 830

Mazid, M.A.
pH dependence of free and immobilized yeast alcohol dehydrogenase kinetics
M.A. MAZID and K.J. LAIDLER 100

McIntyre, E.J.
Purification of bovine and human acrosin
JOHN S. ELCE and ELISE J. MCINTYRE 8

McNeil, J.
Interaction of lipids with intestinal brush border membrane preparations
P. PROULX, J. MCNEIL, I. BRGLEZ, and D.G. WILLIAMSON 904

Michon, F.
Chromium trioxide oxidation of acetylated 3-amino-3,6-dideoxy-L-hexosides
JOSEPH H. BANOUB and FRANCIS MICHON 517

Miclette, J.
Chromosomal protein poly(ADP-ribosyl)ation in pancreatic nucleosomes
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, and G.G. POIRIER 295

Miclette, J.
Hyper(ADP-ribosyl)ation of histone H1
R.J. AUBIN, V.T. DAM, J. MICLETTE, Y. BROUSSEAU, A. HULETSKY, and G.G. POIRIER 1085

Mizuno, A.
Photolysis of pyridinoline, a cross-linking amino acid of collagen, by ultraviolet light
SACHIKO SAKURA, DAISABURO FUJIMOTO, KIKUO SAKAMOTO, AKIO MIZUNO, and KATSUTOSHI MOTEGI 525

Moens, P.B.
Meiotic arrest and synaptonemal complexes in yeast *ts spo 10 (Saccharomyces cerevisiae)*
PETER B. MOENS and SUBHAS C. KUNDU 284

Morais, R.
On the contribution of the mitochondrial genome to the growth of Chinese hamster embryo cells in culture
RÉJEAN MORAIS, DENISE GUERTIN, and JACK A. KORNBLATT 290

Morgan, A.R.
A method for the specific inhibition of poly[d(A-T)] synthesis using the A-T specific quinoxaline antibiotic TANDEM
D.H. EVANS, J.S. LEE, A.R. MORGAN, and R.K. OLSEN 131

Morgan, A.R.
Novel aspects of the structure of the *Escherichia coli* nucleoid investigated by a rapid sedimentation assay
JEREMY S. LEE and A. RICHARD MORGAN 952

Morosoli, R.
Some properties of a mitochondrial endonuclease from yeast
R. MOROSOLI and C.V. LUSENA 757

Motegi, K.
Photolysis of pyridinoline, a cross-linking amino acid of collagen, by ultraviolet light
SACHIKO SAKURA, DAISABURO FUJIMOTO, KIKUO SAKAMOTO, AKIO MIZUNO, and KATSUTOSHI MOTEGI 525

Mura, C.V.
Immunofluorescent localization of lysine-rich histones in isolated nuclei from adult and embryonic chicken erythrocytes
CASILDA V. MURA, GEORGE SETTERFIELD, and JAMES M. NEELIN 215

Myher, J.J.
Resolution of diacylglycerol moieties of natural glycerophospholipids by gas–liquid chromatography on polar capillary columns
J.J. MYHER and A. KUKSIS 638

Nadeau, P.
Isolation and characterization of histones and other acid-soluble chromosomal proteins from *Physarum polycephalum*
SERGE CÔTÉ, PAUL NADEAU, JAMES M. NEELIN, and DOMINICK PALLOTTA 263

Narasimhan, S.
Structure of the glycopeptides of a human γ_1-immunoglobulin G (Tem) myeloma protein as determined by 360-megahertz nuclear magnetic resonance spectroscopy
A.A. GREY, S. NARASIMHAN, J.-R. BRISSON, H. SCHACHTER, and J.P. CARVER 1123

Nazar, R.N.
The 5S RNA – protein complex from yeast: a model for the evolution and structure of the eukaryotic ribosome
ROSS N. NAZAR, MAKOTO YAGUCHI, and GORDON E. WILLICK 490

Neelin, J.M.
Immunofluorescent localization of lysine-rich histones in isolated nuclei from adult and embryonic chicken erythrocytes
CASILDA V. MURA, GEORGE SETTERFIELD, and JAMES M. NEELIN 215

Neelin, J.M.
Isolation and characterization of histones and other acid-soluble chromosomal proteins from *Physarum polycephalum*
SERGE CÔTÉ, PAUL NADEAU, JAMES M. NEELIN, and DOMINICK PALLOTTA 263

Nicholls, P.
Sulphide as an inhibitor and electron donor for the cytochrome *c* oxidase system
P. NICHOLLS and J.-K. KIM 613

Nicholls, P.
Effect of citrate on the reactions of cytochrome *c* with reductants and cyanide
S.P.J. BROOKS, G.A. CHANADY, and P. NICHOLLS 763

Nicola, M.A.
Inhibition of cathepsin L and B by haptoglobin, the haptoglobin–hemoglobin complex, and asialohaptoglobin. "In vitro" studies in the rat
M. PAGANO, M.A. NICOLA, and R. ENGLER 631

Ohashi, P.S.
Reorganization of unique and repetitive sequences during nuclear development in *Tetrahymena thermophila*
CLIFFORD F. BRUNK, SMILEY G.S. TSAO, CATHERINE H. DIAMOND, PAMELA S. OHASHI, NORA N.G. TSAO, and RONALD E. PEARLMAN 847

Okada, Y.
Surface potential and conductance induced in lipid bilayers by the negatively charged ionophore Br-X537A
G. Roy, Y. Okada, and R. Laprade 42

Okada, Y.
Cation and local anesthetic conductance induced by the negatively charged ionophore Br-X537A in lipid bilayers
G. Roy, Y. Okada, and R. Laprade 49

Olsen, R.K.
A method for the specific inhibition of poly[d(A-T)] synthesis using the A-T specific quinoxaline antibiotic TANDEM
D.H. Evans, J.S. Lee, A.R. Morgan, and
R.K. Olsen 131

Orlando, J.A.
Essential sulfhydryl groups and the light-dependent transhydrogenase system of *Rhodopseudomonas spheroides*: localization of substrate binding sites and evidence for masked or buried sulfhydryl groups in the peripheral protein factor
Joseph A. Orlando and Thomas Pisani 882

Ottensmeyer, F.P.
DNA organization in nucleosomes
D.P. Bazett-Jones and F.P. Ottensmeyer 364

Owens, T.
The effect of ultraviolet radiation on early stages of activation of human lymphocytes: inhibition is independent of effects on DNA
Gustavo Castellanos, Trevor Owens, Christopher Rudd, Trevor Bladon, George Setterfield, and
J. Gordin Kaplan 854

Pagano, M.
Inhibition of cathepsin L and B by haptoglobin, the haptoglobin–hemoglobin complex, and asialohaptoglobin. "In vitro" studies in the rat
M. Pagano, M.A. Nicola, and R. Engler 631

Palfree, R.G.E.
Formation of erythrocyte rouleaux in preheated normal serum: roles of albumin polymers and lysophosphatidylcholine
D.R. Forsdyke, R.G.E. Palfree, and A. Takeda 705

Pallotta, D.
Isolation and characterization of histones and other acid-soluble chromosomal proteins from *Physarum polycephalum*
Serge Côté, Paul Nadeau, James M. Neelin, and
Dominick Pallotta 263

Palmer, E.
Phosphorylated and unphosphorylated forms of cardiac tropomyosin
Magdelena Segura, Elizabeth Palmer, and
José L. Saborío 1116

Paranchych, W.
Dissociation and characterization of pilin isolated from *Pseudomonas aeruginosa* strains PAK and PAO
Tania H. Watts, Cyril M. Kay, and
William Paranchych 867

Parsons, G.D.
Identification of gene products from cloned fragments of the left arm of λdapB2
George A. Mackie and Gay D. Parsons 338

Pawagi, A.B.
Reversible cryogenic alteration of the ultraviolet absorption spectra of the olefinic bonds in lipid membranes
Ian M. Campbell and Asha B. Pawagi 593

Payet, N.
Effect of ACTH or zinc treatment on plasma aldosterone and corticosterone levels and on the *in vitro* steroid output from adrenocortical cells
Nicole Payet and Jean-Guy Lehoux 1058

Pearlman, R.E.
DNA binding proteins from *Tetrahymena thermophila*
Nora N.G. Tsao and Ronald E. Pearlman 398

Pearlman, R.E.
Reorganization of unique and repetitive sequences during nuclear development in *Tetrahymena thermophila*
Clifford F. Brunk, Smiley G.S. Tsao,
Catherine H. Diamond, Pamela S. Ohashi,
Nora N.G. Tsao, and Ronald E. Pearlman 847

Pépin, Y.
Microcalorimetric study of the interaction of human and bovine serum albumins with tryptophan and tryptophan analogs
Hong Phuong-Nguyen, Hélène Bruderlein,
Geneviève Delmas, and Yvon Pépin 91

Pereira, L.V.
Analysis of enzymatically released peptides by reverse-phase high performance liquid chromatography from picomole amounts of apolipoproteins separated on polyacrylamide isoelectric focusing gels
Leo V. Pereira and Peter J. Dolphin 790

Pereira, L.V.
Tryptic peptide analysis of the human apolipoprotein E isomorphs
Leo V. Pereira and Peter J. Dolphin 1032

Perry, M.B.
Structure of the acidic capsular polysaccharide of *Cryptococcus laurentii* (NRRL Y-1401)
Malcolm B. Perry and Ann C. Webb 124

Phuong-Nguyen, H.
Microcalorimetric study of the interaction of human and bovine serum albumins with tryptophan and tryptophan analogs
Hong Phuong-Nguyen, Hélène Bruderlein,
Geneviève Delmas, and Yvon Pépin 91

Pisani, T.
Essential sulfhydryl groups and the light-dependent transhydrogenase system of *Rhodopseudomonas spheroides*: localization of substrate binding sites and evidence for masked or buried sulfhydryl groups in the peripheral protein factor
Joseph A. Orlando and Thomas Pisani 882

Poirier, G.G.
Chromosomal protein poly(ADP-ribosyl)ation in pancreatic nucleosomes
R.J. Aubin, V.T. Dam, J. Miclette, Y. Brousseau, and G.G. Poirier 295

Poirier, G.G.
Hyper(ADP-ribosyl)ation of histone H1
R.J. Aubin, V.T. Dam, J. Miclette, Y. Brousseau, A. Huletsky, and G.G. Poirier 1085

Pollack, M.
Effect of heat shock on gene expression in human epidermoid carcinoma cells (strain KB) and in primary cultures of mammalian and avian cells
Burr G. Atkinson and Michael Pollack 316

Pombo-Gentile, A.
Organization and expression of leghaemoglobin genes
N. Brisson, A. Pombo-Gentile, and D.P.S. Verma 272

Ponsard, G.
Étude de la dééthérification du 3-propyl ether d'estradiol par les fractions subcellulaires de foie de rat
Jean-Pierre Tresca, Geneviève Ponsard et Hervé Degrelle 549

Poyet, P.
[^{3}H]Apomorphine binding to a GTP-sensitive dopaminergic site in bovine anterior pituitary gland
Thérèse Di Paolo, Bernard Gagné, Patrick Poyet, and Fernand Labrie 1043

Prevec, L.
Characterization of the electrophoretic mobility mutation in the N protein of the *ts*D1 mutant of vesicular stomatitis virus New Jersey serotype
Earl Brown and Ludvik Prevec 1065

Proulx, P.
Interaction of lipids with intestinal brush border membrane preparations
P. Proulx, J. McNeil, I. Brglez, and D.G. Williamson 904

Proulx, P.
Studies on the uptake of exogenous phosphoglycerides by *Escherichia coli* B cells
P. Proulx, P. Hellion, and J. Mackenzie 980

Pulleyblank, D.E.
A topoisomerase from chicken erythrocyte nuclei which does not assemble nucleosome core particles *in vitro*
Michael J. Ellison and David E. Pulleyblank 651

Rank, G.H.
Electroimmunochemical analysis of plasma membrane vesicles from *Saccharomyces cerevisiae*
James H. Gerlach, Ole J. Bjerrum, and Gerald H. Rank 659

Rasilo, M.-L.
Indentification of hyaluronic acid as a component of human teratocarcinoma-derived cells of line PA 1
Maija-Liisa Rasilo, Jorma Wartiovaara, and Ossi Renkonen 741

Rasilo, M.-L.
Partial structural analysis of concanavalin A binding glycopeptides of large size from human teratocarcinoma-derived cells: cleavage by hydrazinolysis and alkaline borohydride
Maija-Liisa Rasilo and Ossi Renkonen 749

Regoeczi, E.
The structural heterogeneity of the carbohydrate moiety of desialylated human transferrin
Leo März, Mark W.C. Hatton, Leslie R. Berry, and Erwin Regoeczi 624

Renkonen, O.
Indentification of hyaluronic acid as a component of human teratocarcinoma-derived cells of line PA 1
Maija-Liisa Rasilo, Jorma Wartiovaara, and Ossi Renkonen 741

Renkonen, O.
Partial structural analysis of concanavalin A binding glycopeptides of large size from human teratocarcinoma-derived cells: cleavage by hydrazinolysis and alkaline borohydride
Maija-Liisa Rasilo and Ossi Renkonen 749

Ringuette, M.J.
Specific small nuclear RNAs from SV40-transformed cells stimulate transcription initiation in nontransformed isolated nuclei
Maurice J. Ringuette, Karen Gordon, Jolanta Szyszko, and Margarida O. Krause 252

Rip, J.W.
The submicrosomal distribution of dolichol and dolichol phosphokinase activity in rat liver
Jack W. Rip and Kenneth K. Carroll 36

Robinson, J.J.
Molecular properties of fumarate reductase isolated from the cytoplasmic membrane of *Escherichia coli*
John J. Robinson and Joel H. Weiner 811

Rogers, P.A.
Preparation of messenger RNA from mature skeletal and cardiac muscle
Peter A. Rogers and George H. Jones 587

Roomi, M.W.
Modulation by phenobarbital of lipolytic activity in postheparin plasma and tissues of the rat
David M. Goldberg, M. Waheed Roomi, and Alex Yu 1077

Rosner, A.
Expression of a cloned bovine growth hormone gene in *Escherichia coli* minicells
Arie Rosner, Eli Keshet, Rachel Gutstein, and Haim Aviv 521

Rothblat, G.H.
The effect of lidocaine on cholesterol influx, esterification, and accumulation in cultured cells
Frank P. Bell, G.H. Rothblat, and M. Bamberger 967

Roy, C.
Structural comparison of the lectin from sainfoin (*Onobrychis viciifolia*) with concanavalin A and other D-mannose specific lectins
N. MARTIN YOUNG, ROSS E. WILLIAMS, CAMILLE ROY, and MAKOTO YAGUCHI **933**

Roy, G.
Surface potential and conductance induced in lipid bilayers by the negatively charged ionophore Br-X537A
G. ROY, Y. OKADA, and R. LAPRADE **42**

Roy, G.
Cation and local anesthetic conductance induced by the negatively charged ionophore Br-X537A in lipid bilayers
G. ROY, Y. OKADA, and R. LAPRADE **49**

Rudd, C.
The effect of ultraviolet radiation on early stages of activation of human lymphocytes: inhibition is independent of effects on DNA
GUSTAVO CASTELLANOS, TREVOR OWENS, CHRISTOPHER RUDD, TREVOR BLADON, GEORGE SETTERFIELD, and J. GORDIN KAPLAN **854**

Saborío, J.L.
Phosphorylated and unphosphorylated forms of cardiac tropomyosin
MAGDELENA SEGURA, ELIZABETH PALMER, and JOSÉ L. SABORÍO **1116**

Saha, A.
Influence of heat on the conformational stability of a human IgG cryoglobulin
PARIMAL CHOWDHURY and ANIL SAHA **564**

Sakamoto, K.
Photolysis of pyridinoline, a cross-linking amino acid of collagen, by ultraviolet light
SACHIKO SAKURA, DAISABURO FUJIMOTO, KIKUO SAKAMOTO, AKIO MIZUNO, and KATSUTOSHI MOTEGI **525**

Sakura, S.
Photolysis of pyridinoline, a cross-linking amino acid of collagen, by ultraviolet light
SACHIKO SAKURA, DAISABURO FUJIMOTO, KIKUO SAKAMOTO, AKIO MIZUNO, and KATSUTOSHI MOTEGI **525**

Salvatore, A.
Soluble neutral maltase–glucoamylase from the small intestine: separation and characterization of components with differing affinity for concanavalin A
G. FORSTNER, A. SALVATORE, L. LEE, and J. FORSTNER **1007**

Sattolo, M.H.
Synthesis and turnover of proteins and mRNA in germinating wheat embryos
ZBYSZKO F. GRZELCZAK, MARK H. SATTOLO, LINDA K. HANLEY-BOWDOIN, THERESA D. KENNEDY, and BYRON G. LANE **389**

Schachter, H.
Structure of the glycopeptides of a human γ_1-immunoglobulin G (Tem) myeloma protein as determined by 360-megahertz nuclear magnetic resonance spectroscopy
A.A. GREY, S. NARASIMHAN, J.-R. BRISSON, H. SCHACHTER, and J.P. CARVER **1123**

Scheets, K.
Comparison of complexes containing lysyl-tRNA synthetase from normal and virus-transformed cells
KENT THOMAS, KAY SCHEETS, SHARON ALLEN, and CHARLES HEDGCOTH **804**

Schnare, M.N.
Comparative sequence analysis as an approach to evaluating structure, function, and evolution of 5S and 5.8S ribosomal RNAs
RON M. MACKAY, DAVID F. SPENCER, MURRAY N. SCHNARE, W. FORD DOOLITTLE, and MICHAEL W. GRAY **480**

Schneider, H.
A Col E1 hybrid plasmid containing *Escherichia coli* genes complementing D-xylose negative mutants of *Escherichia coli* and *Salmonella typhimurium*
RYSZARD MALESZKA, PATRICK Y. WANG, and HENRY SCHNEIDER **144**

Schryvers, A.
The anaerobic *sn*-glycerol-3-phosphate dehydrogenase: cloning and expression of the *glp*A gene of *Escherichia coli* and identification of the *glp*A products
ANTHONY SCHRYVERS and JOEL H. WEINER **224**

See, Y.P.
Analysis of the expression of cloned genes using an *Escherichia coli* cell-free system
YEW PHEW SEE and BERNARD R. GLICK **1095**

Segura, M.
Phosphorylated and unphosphorylated forms of cardiac tropomyosin
MAGDELENA SEGURA, ELIZABETH PALMER, and JOSÉ L. SABORÍO **1116**

Sells, B.H.
Partial purification of a ribonucleic acid binding cAMP-independent protein kinase from embryonic chicken muscle
ALAN P. HUDSON, JNANANKUR BAG, and BRUCE H. SELLS **890**

Setterfield, G.
Immunofluorescent localization of lysine-rich histones in isolated nuclei from adult and embryonic chicken erythrocytes
CASILDA V. MURA, GEORGE SETTERFIELD, and JAMES M. NEELIN **215**

Setterfield, G.
The effect of ultraviolet radiation on early stages of activation of human lymphocytes: inhibition is independent of effects on DNA
GUSTAVO CASTELLANOS, TREVOR OWENS, CHRISTOPHER RUDD, TREVOR BLADON, GEORGE SETTERFIELD, and J. GORDIN KAPLAN **854**

Shaikh, N.A.
Expansion of phospholipid pool size of rat intestinal villus cells during fat absorption
N.A. SHAIKH and A. KUKSIS **444**

Sheinin, R.
Novobiocin sensitivity and chromatin conformation in wild-type and temperature-sensitive mouse L cells
R.W. COLWILL and R. SHEININ **195**

Shepherd, M.G.
The effects of ergosterol and alcohols on germ-tube formation and chitin synthase in *Candida albicans*
YOKE YIN CHIEW, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD 15

Shepherd, M.G.
A microassay for UDP-*N*-acetylglucosamine pyrophosphorylase
PRAMOD K. GOPAL, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD 721

Shriver, J.W.
In situ enzymatic removal of orthophosphate by the nucleoside phosphorylase catalyzed phosphorolysis of nicotinamide riboside
JOHN W. SHRIVER and BRIAN D. SYKES 917

Sillers, P.J.
Erratum: Analysis of chromosome movement in crane fly spermatocytes by ultraviolet irradiation of individual chromosomal spindle fibres. II. Action spectra for stopping chromosome movement and for blocking ciliary beating and myofibril contractions
PEGGY J. SILLERS and ARTHUR FORER 81

Silver, M.
Potential of intense γ-irradiation of host cells for analysis of virus-specified transcription and replication
MORRIS SILVER and SAMUEL DALES 279

Skala, J.P.
The separation and properties of phosphoprotein phosphatase modulators from brown adipose tissue of young rats and the changes in their concentration during development
BRIAN L. KNIGHT and JOSEF P. SKALA 734

Slaughter, D.
Radioimmunoassay for the antifreeze polypeptides of the winter flounder: seasonal profile and immunological cross-reactivity with other fish antifreezes
DON SLAUGHTER and CHOY L. HEW 824

Smale, F.A.
3-Hydroxy-3-methylglutaryl-CoA reductase activity in liver, brown fat, and small intestine of developing rats
PETER HAHN and FREDA-ANNE SMALE 507

Smith, D.B.
The cross-linking of tubulin with imidoesters
G. GALELLA and DAVID B. SMITH 71

Spencer, D.F.
Comparative sequence analysis as an approach to evaluating structure, function, and evolution of 5S and 5.8S ribosomal RNAs
RON M. MACKAY, DAVID F. SPENCER, MURRAY N. SCHNARE, W. FORD DOOLITTLE, and MICHAEL W. GRAY 480

Sribney, M.
Biosynthesis of CDP-diacylglycerol in hog mesenteric lymph node lymphocytes
MICHAEL SRIBNEY and CAROL A. HEGADORN 668

Stanacev, N.Z.
On the mechanism of spontaneous transfer of lipids from isolated microsomal to mitochondrial membranes
L. STUHNE-SEKALEC and N.Z. STANACEV 137

Stanacev, N.Z.
Biosynthesis of microsomal phospholipids and mitochondrial polyglycerophosphatides in rapidly sedimenting endoplasmic reticulum
L. STUHNE-SEKALEC and N.Z. STANACEV 877

Stanacev, N.Z.
Convenient biosynthetic preparation of isomeric spin-labelled radioactive phosphatidic acids
L. STUHNE-SEKALEC and N.Z. STANACEV 1014

Stevenson, K.J.
Purification and characterization of dihydrofolate reductase from Walker 256 carcinosarcoma
SUSAN J. JOHNSON, SAGAR V. GUPTA, KENNETH J. STEVENSON, and JAMES H. FREISHEIM 1132

Strasberg, P.M.
Purification of glucosylceramidase by affinity chromatography
P.M. STRASBERG, J.A. LOWDEN, and D. MAHURAN 1025

Strickland, K.P.
The purification and characterization of a phospholipase A_2 activity from the 160 000 × *g* pellet (microsomal fraction) of bovine brain acting on phosphatidylinositol
N.C.C. GRAY and K.P. STRICKLAND 108

Stuhne-Sekalec, L.
On the mechanism of spontaneous transfer of lipids from isolated microsomal to mitochondrial membranes
L. STUHNE-SEKALEC and N.Z. STANACEV 137

Stuhne-Sekalec, L.
Biosynthesis of microsomal phospholipids and mitochondrial polyglycerophosphatides in rapidly sedimenting endoplasmic reticulum
L. STUHNE-SEKALEC and N.Z. STANACEV 877

Stuhne-Sekalec, L.
Convenient biosynthetic preparation of isomeric spin-labelled radioactive phosphatidic acids
L. STUHNE-SEKALEC and N.Z. STANACEV 1014

Sullivan, P.A.
The effects of ergosterol and alcohols on germ-tube formation and chitin synthase in *Candida albicans*
YOKE YIN CHIEW, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD 15

Sullivan, P.A.
A microassay for UDP-*N*-acetylglucosamine pyrophosphorylase
PRAMOD K. GOPAL, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD 721

Suzuki, I.
Cytochrome c_{554} as a possible electron donor in the hydroxylation of ammonia and carbon monoxide in *Nitrosomonas europaea*
D.C.Y. TSANG and ISAMU SUZUKI 1018

Sykes, B.D.
In situ enzymatic removal of orthophosphate by the nucleoside phosphorylase catalyzed phosphorolysis of nicotinamide riboside
JOHN W. SHRIVER and BRIAN D. SYKES 917

Szyszko, J.
Specific small nuclear RNAs from SV40-transformed cells stimulate transcription initiation in nontransformed isolated nuclei
MAURICE J. RINGUETTE, KAREN GORDON, JOLANTA SZYSZKO, and MARGARIDA O. KRAUSE **252**

Takeda, A.
Formation of erythrocyte rouleaux in preheated normal serum: roles of albumin polymers and lysophosphatidylcholine
D.R. FORSDYKE, R.G.E. PALFREE, and A. TAKEDA **705**

Tanguay, R.M.
Intracellular translocation of cellular and heat shock induced proteins upon heat shock in *Drosophila* Kc cells
R.M. TANGUAY and M. VINCENT **306**

Taylor, R.F.
A cell-free system from *Streptococcus faecium* for studies on the biosynthesis of triterpenoid carotenoids
RICHARD F. TAYLOR and BRIAN H. DAVIES **675**

Taylor, R.F.
The biosynthesis of triterpenoid carotenoids in *Streptococcus faecium* UNH 564P
BRIAN H. DAVIES and RICHARD F. TAYLOR **684**

Thibault, G.
Tonin as activator of renin
JOLANTA GUTKOWSKA, PIERRE CORVOL, GAÉTAN THIBAULT, and JACQUES GENEST **843**

Thomas, K.
Comparison of complexes containing lysyl-tRNA synthetase from normal and virus-transformed cells
KENT THOMAS, KAY SCHEETS, SHARON ALLEN, and CHARLES HEDGCOTH **804**

Tinker, D.O.
Effects of membrane fluidity and identification of the rate-limiting step in the protein-mediated phosphatidylcholine exchange reaction
RICHARD P. BOZZATO and DAVID O. TINKER **409**

Tinker, D.O.
Thermodynamics of mixing of dipalmitoyl phosphatidylcholine and egg phosphatidylcholine in hydrated bilayers
DAVID O. TINKER and ROSITA LOW **538**

To, R.
The effect of anoxia on anthracycline-induced DNA damage in the RPMI-6410 human lymphoblastoid cell line
L. BROX, B. GOWANS, R. TO, and A. BELCH **873**

Tresca, J.-P.
Étude de la déethérification du 3-propyl ether d'estradiol par les fractions subcellulaires de foie de rat
JEAN-PIERRE TRESCA, GENEVIÈVE PONSARD et HERVÉ DEGRELLE **549**

Triandafillou, J.
Role of thyroid hormone in cold-induced changes in rat brown adipose tissue mitochondria
JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN **530**

Triandafillou, J.
Growth of interscapular brown adipose tissue in cold-acclimated hypophysectomized rats maintained on thyroxine and corticosterone
MATHIAS FELLENZ, JOAN TRIANDAFILLOU, CYNTHIA GWILLIAM, and JEAN HIMMS-HAGEN **838**

Tsang, D.C.Y.
Cytochrome c_{554} as a possible electron donor in the hydroxylation of ammonia and carbon monoxide in *Nitrosomonas europaea*
D.C.Y. TSANG and ISAMU SUZUKI **1018**

Tsao, N.N.G.
DNA binding proteins from *Tetrahymena thermophila*
NORA N.G. TSAO and RONALD E. PEARLMAN **398**

Tsao, N.N.G.
Reorganization of unique and repetitive sequences during nuclear development in *Tetrahymena thermophila*
CLIFFORD F. BRUNK, SMILEY G.S. TSAO, CATHERINE H. DIAMOND, PAMELA S. OHASHI, NORA N.G. TSAO, and RONALD E. PEARLMAN **847**

Tsao, S.G.S.
Reorganization of unique and repetitive sequences during nuclear development in *Tetrahymena thermophila*
CLIFFORD F. BRUNK, SMILEY G.S. TSAO, CATHERINE H. DIAMOND, PAMELA S. OHASHI, NORA N.G. TSAO, and RONALD E. PEARLMAN **847**

Verma, D.P.S.
Organization and expression of leghaemoglobin genes
N. BRISSON, A. POMBO-GENTILE, and D.P.S. VERMA **272**

Vincent, M.
Intracellular translocation of cellular and heat shock induced proteins upon heat shock in *Drosophila* Kc cells
R.M. TANGUAY and M. VINCENT **306**

Vrba, R.
Glycosylation of plasma proteins with [U-^{14}C]glucose *in vivo*
RUDOLF VRBA and STEPHEN P. ADAMS **942**

Walden, D.B.
Regulation of gene expression in corn (*Zea mays* L.) by heat shock
CHRIS L. BASZCZYNSKI, DAVID B. WALDEN, and BURR G. ATKINSON **569**

Walker, T.
Sexual development in a homothallic fission yeast: synthesis of readiness proteins resolved by gel electrophoresis
G.B. CALLEJA, BYRON F. JOHNSON, and TEENA WALKER **693**

Wang, P.Y.
A Col E1 hybrid plasmid containing *Escherichia coli* genes complementing D-xylose negative mutants of *Escherichia coli* and *Salmonella typhimurium*
RYSZARD MALESZKA, PATRICK Y. WANG, and HENRY SCHNEIDER **144**

Wartiovaara, J.
Indentification of hyaluronic acid as a component of human teratocarcinoma-derived cells of line PA 1
MAIJA-LIISA RASILO, JORMA WARTIOVAARA, and OSSI RENKONEN 741

Watanabe, M.
Partial purification and characterization of a membrane-associated steroid-binding protein from *Pseudomonas testosteroni*
MIKE FRANCIS and MAMORU WATANABE 798

Watts, T.H.
Dissociation and characterization of pilin isolated from *Pseudomonas aeruginosa* strains PAK and PAO
TANIA H. WATTS, CYRIL M. KAY, and WILLIAM PARANCHYCH 867

Webb, A.C.
Structure of the acidic capsular polysaccharide of *Cryptococcus laurentii* (NRRL Y-1401)
MALCOLM B. PERRY and ANN C. WEBB 124

Weber, J.
Adenoassociated virus has a unique chromatin structure
MARTHA BROWN and JOSEPH WEBER 1001

Weiner, J.H.
The anaerobic *sn*-glycerol-3-phosphate dehydrogenase: cloning and expression of the *glp*A gene of *Escherichia coli* and identification of the *glp*A products
ANTHONY SCHRYVERS and JOEL H. WEINER 224

Weiner, J.H.
Molecular properties of fumarate reductase isolated from the cytoplasmic membrane of *Escherichia coli*
JOHN J. ROBINSON and JOEL H. WEINER 811

Wherrett, J.R.
Deacylation of bis(monoacylglycero)phosphate by lysosomal and microsomal lysophospholipases from rat liver
SREBRENKA HUTERER and JOHN R. WHERRETT 599

White, B.N.
Vitellogenin mRNA in locust fat body: identification, isolation, and quantitative changes induced by juvenile hormone
Y. CHINZEI, B.N. WHITE, and G.R. WYATT 243

Whitfield, J.F.
Rat liver ribonucleotide reductase: separation, purification, and properties of two nonidentical subunits
T. YOUDALE, J.P. MACMANUS, and J.F. WHITFIELD 463

Willemot, J.
Glycerol-induced adenine nucleotide catabolism in rat liver cells
CHRISTINE DES ROSIERS, MARCEL LALANNE, and JOAN WILLEMOT 1101

Willemot, J.
Effects of glycerol and fructose on purine synthesis *de novo* and on PP-ribose-P availability in rat liver cells
CHRISTINE DES ROSIERS, MARCEL LALANNE, and JOAN WILLEMOT 1109

Williams, R.E.
Structural comparison of the lectin from sainfoin (*Onobrychis viciifolia*) with concanavalin A and other D-mannose specific lectins
N. MARTIN YOUNG, ROSS E. WILLIAMS, CAMILLE ROY, and MAKOTO YAGUCHI 933

Williamson, D.G.
Interaction of lipids with intestinal brush border membrane preparations
P. PROULX, J. MCNEIL, I. BRGLEZ, and D.G. WILLIAMSON 904

Willick, G.E.
The 5S RNA – protein complex from yeast: a model for the evolution and structure of the eukaryotic ribosome
ROSS N. NAZAR, MAKOTO YAGUCHI, and GORDON E. WILLICK 490

Wyatt, G.R.
Vitellogenin mRNA in locust fat body: identification, isolation, and quantitative changes induced by juvenile hormone
Y. CHINZEI, B.N. WHITE, and G.R. WYATT 243

Yaguchi, M.
The 5S RNA – protein complex from yeast: a model for the evolution and structure of the eukaryotic ribosome
ROSS N. NAZAR, MAKOTO YAGUCHI, and GORDON E. WILLICK 490

Yaguchi, M.
Structural comparison of the lectin from sainfoin (*Onobrychis viciifolia*) with concanavalin A and other D-mannose specific lectins
N. MARTIN YOUNG, ROSS E. WILLIAMS, CAMILLE ROY, and MAKOTO YAGUCHI 933

Yano, I.
ESR studies on the lipid bilayers of separated outer and cytoplasmic membranes of a moderately halophilic bacterium
SHIGEKO KURIYAMA, HISAKO HARA, TAKASHI HIRAMATSU, ATSUSHI HYONO, IKUYA YANO, and MASAMIKI MASUI 830

Youdale, T.
Rat liver ribonucleotide reductase: separation, purification, and properties of two nonidentical subunits
T. YOUDALE, J.P. MACMANUS, and J.F. WHITFIELD 463

Young, N.M.
Structural comparison of the lectin from sainfoin (*Onobrychis viciifolia*) with concanavalin A and other D-mannose specific lectins
N. MARTIN YOUNG, ROSS E. WILLIAMS, CAMILLE ROY, and MAKOTO YAGUCHI 933

Yu, A.
Modulation by phenobarbital of lipolytic activity in postheparin plasma and tissues of the rat
DAVID M. GOLDBERG, M. WAHEED ROOMI, and ALEX YU 1077

Zaleski, J.
Nuclear membrane-bound UDPglucuronosyltransferase of rat liver
JAN ZALESKI, SURENDRA K. BANSAL, and TERESA GESSNER 972

Zelinski, T.A.
Phosphatidylethanolamine biosynthesis in isolated hamster heart
TERESA A. ZELINSKI and PATRICK C. CHOY **817**

Zhao, M.S.
Production of antibody to phosphoprotein associated with nucleosome structure
M.S. ZHAO and C.C. LIEW **356**

Zollinger, M.
Injection defect in alkylated and depurinated T7 bacteriophage: analysis by DNA ejection
M.D. MAMET-BRATLEY, M. ZOLLINGER, and B. KARSKA-WYSOCKI **232**
